Aerosol

ACTIVE INGREDIENTS:
- Clothianidin: 0.40%
- Piperonyl Butoxide: 1.00%
- Metofluthrin: 0.01%
- *Clothianidin (butylcarbityl) (6-propylpiperonyl) ether and related compounds: 98.59%

OTHER INGREDIENTS:
- 1.00%

*To the User: (explicada ampliamente. Si usted no lee inglés, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.

TO KILL BED BUGS (Adults, Nymphs and Eggs): For best results, vacuuming surfaces is recommended prior to treatment. Spray bed bugs and eggs directly wherever possible. Spray surfaces thoroughly, paying special attention to areas where bed bugs and their eggs hide or harbor, such as in and around non-food areas including on and around baseboards, closets, window treatments, beneath floor coverings, as well as other non-washable items that may come in contact with bed bugs such as luggage, shoes and backpacks. If treating a pet’s living environment, spray on and around pet beds, pet bedding, floors, pet sleeping areas and furnishings. Pet bedding must be washed before reuse. Do not spray product directly on pets. Allow treated surfaces to dry thoroughly prior to being contacted by people or pets. CROSSFIRE Aerosol can be directly applied to mattresses and box springs. Infested bed linens must not be treated. These must be removed, tightly sealed in a plastic bag, laundered and dried at high temperatures prior to reuse. Vacuuming surfaces prior to treatment is highly recommended. Spray product directly to mattress surface, paying special attention to seams, folds, tufts and edges, as well as bed frames and box springs where bed bugs harbor. Clean linen must be put on bed prior to reuse. For use on upholstered furniture, apply product directly to seams, folds, tufts and edges ONLY. Do not apply to surfaces that may have direct contact with people or pets. Allow treated areas to dry thoroughly prior to being contacted by people or pets. When treating carpets, floor coverings or rugs, spray on and around baseboards, floorboards and along edges of carpeting. Apply enough product to get spray coverage to the bottom of the carpet and pad where bed bugs may be hiding. Spray under rugs.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Do not store near heat or open flame. Store in cool dry area away from children. Keep from freezing.

Pesticide Disposal: Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Disposal: Do Not Puncture or Incinerate. If empty: Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency or 1-888-740-8712 for disposal instructions.
